Woodruff Library

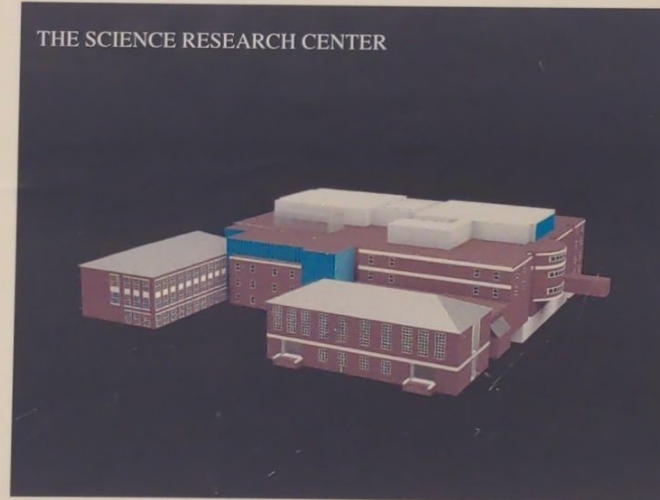

MCPHEETERS DENNIS

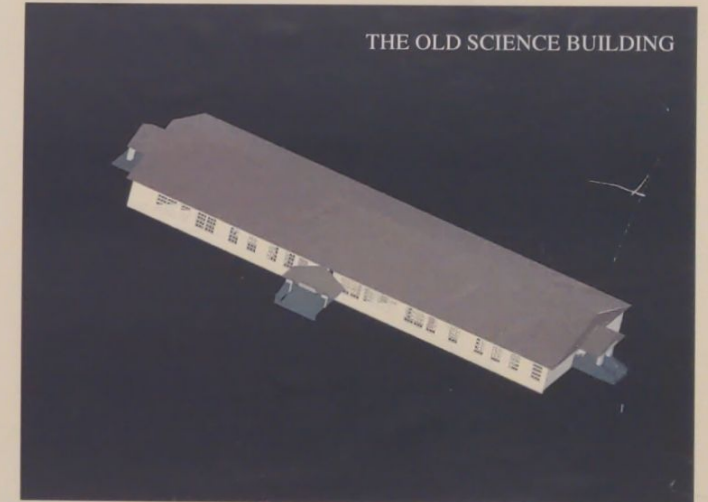

Objective

- To create a virtual walk-thru using a three dimensional map of the Atlanta University Center starting with Clark Atlanta University.

THE SCIENCE RESEARCH CENTER

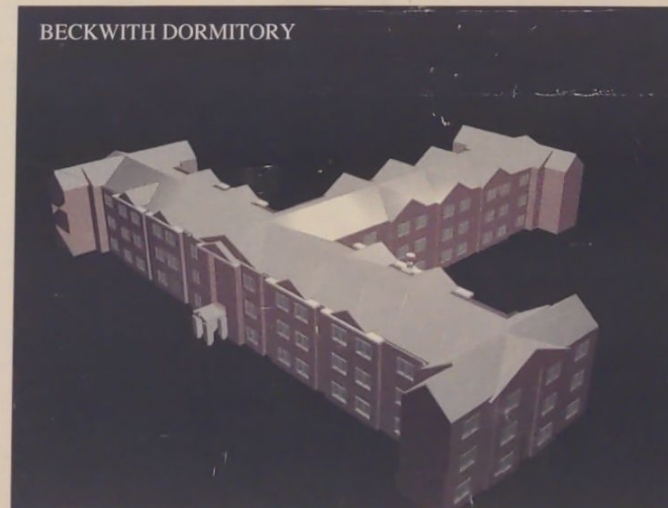

THE OLD SCIENCE BUILDING

Approach to Solving the Problem

- Creation of wire frame models
- Conversion of the wire frame model into a solid object containing many faces
- DXF the solid model from the CAD package to an animation package
- Apply textures, materials, special effects & lighting in the animation package
